

SETUP INSTRUCTIONS

The 30 second Kitchen by Piranha Off Road Products has been proudly designed and manufactured in Australia for use in Australian Touring conditions.

1. The kitchen needs to be mounted to a fridge slide, the design has been based on a Piranha 40Lt Fridge Slide, but may fit other brands.
2. If it is the latest 40Lt Piranha Fridge slide it has been pre drilled to mount the Kitchen to the slide.
3. If it is an older style Piranha slide or another brand it will need to be drilled and bolted to slide. Place Kitchen on left side of slide with base plate on slide and drill through base plate through Fridge slide and bolt up using 4 X M6 bolts and nuts supplied.
4. If it is an older style Piranha fridge slide you will need to use the template provided to drill a 6mm hole into the face of the existing fridge slide, deburr and paint and then bolt stud provided with dome nut. To test, after Kitchen fitted, locate door onto stud.
5. You will need a clearance of 150mm between the fridge slide and door opening to enable the kitchen to operate
6. Please note a Piranha Fridge slide is rated to 130Kg load so make sure when using another brand it is rated to a minimum of 100Kg.

The 30 Second Kitchen produced by Piranha Off Road Products will provide you with years of trouble free service, and is backed by a 2 year warranty (see warranty statement on back) and years of experience.

Kitchen Specifications:

WARNING

The combined EXTRA weight recommended for the 30 Second Kitchen is a permanent 5Kg and a transient 5Kg to the tray when unfolded, making a total of 10Kg of additional weight. Above these weights will affect the performance and void the warranty.

WARRANTY

This product has a national warranty against faulty workmanship or materials and will be repaired or replaced. 2 YEAR period from date of purchase. The warranty is extended to the original purchaser and a copy of the receipt is required if making a claim. The product will need to be returned to Piranha Off Road at your expense and the repaired or replacement will be returned to you, at Piranha expense. The warranty does not extend to misuse, abuse or after sales damage. This warranty is in addition to any conditions or warranties imposed or implied by any laws in force in Australia.

Mounts snugly beside fridge

Simple 30 second set-up

Complete with plates, cutlery & burner

Allows full access to fridge

Well secured when not in use

Drain holes

Solid slide action

Designed
& Made
in Australia

After travelling to Cape York in 2010 with 14 camper trailers the one thing we were envious of was a quick to set up kitchen space, a feature on all the trailers.

12 months later the 30 Second Kitchen was born, suitable for most 4WD set ups with space for a 40L fridge.

Tested in 2011 through the harsh environment of Australia's centre, the 30 Second Kitchen is a dream come true. Easily set up with cutlery, cups, plates and cooker now easily accessible!

1 0 seconds

The kitchen is securely mounted to the Piranha 40L fridge slide beside the fridge, which is normally "wasted" space.

2 5 seconds

The fridge slide is unlocked, and both fridge and kitchen slide out together easily on the piranha heavy duty runners.

3 10 seconds

The kitchen is unclipped from the fridge slide and then is slid out past the fridge.

A heavy duty slide rail is used for ease of operation and long life.

4 20 seconds

The kitchen bench is opened and secured to the fridge slide with locating pin and bracket.

5 25 seconds

The kitchen legs are extended and secured in place to height needed.

If ground is uneven, the legs can be adjusted to different lengths.

6 30 seconds

Flood planes south of Lake Eyre - June 2011

Set-up your kitchen in **30 seconds** with simple slide mounted action - adjustable legs to set-up anywhere!
